

“Mommy and Daddy love our new home...me too!”

Thousands of families live in old mobile homes with high electric bills. Harley Wright, his mom and dad, and his brother Hunter are no longer one of those families. Thanks to Frontier Housing and Licking Valley RECC, they have a comfortable new home with affordable electric bills.

If you live in an older mobile home, contact Frontier Housing and Licking Valley. They don't exist to make money, but to improve lives.
