

"It makes my kids proud to live in a house."

Living in an apartment, Trista Nedeff, a single mother of two, dreamed of owning a home.

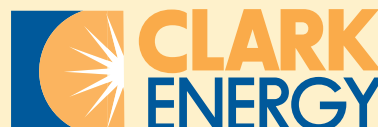

Thanks to Frontier Housing and Clark Energy that dream came true. Frontier helped her find affordable financing. Clark advised her on how to seal and insulate her home.

Today, Trista owns her own home in the Bath County community of Preston. Her kids play in the yard, and she has affordable electric bills.

If you'd like to build an energy-efficient home, contact the professionals at Frontier Housing and Clark Energy. They might help you to realize your dream.

**Frontier Housing and Clark Energy,
partnering for better homes
today and better lives tomorrow.**
