

Frontier Staff visits Chicago!

During the week of August 18-22, 10 members of Frontier Housing's staff attended a NeighborWorks® America Training Institute in Chicago, Illinois. While there, staff trained in areas of loan compliance and servicing, public speaking, credit, multifamily asset management, and building stronger community partnerships. They also enjoyed the sights and sounds of this great city with food from around the globe, world-class shopping, cultural venues from museums to the theater, a history that has influenced music and society nationwide and diverse neighborhoods.

NeighborWorks® America offers the trainings as part of its dedication to providing the highest quality training to the staff and boards of organizations who are committed to improving the affordability of neighborhood housing, the vitality of neighborhood economies and the quality of community life. The trainings serve as the meeting ground for over 2000 community development practitioners, nonprofit organization staff, policy makers, public officials, lenders, developers, community organizers and residents to come together and share progressive ideas, models for success and education that keeps them in the forefront of the community development field.

L to R: Sherry Farley, Rhonda Logan, Ronda Utterback, Diana Conger, Ronnica Mabry, Kelly Fleck, Wendy Puckett, Penny Young, Chris Robbins, Matt Farley

The staff also enjoyed a meal of Chicago deep-dish pizza together.
